\$170 commuters including meals

**DEPOSIT:** \$50 due by October 18, 2019  
(This workshop will fill quickly)

Ten years ago the leading Mind, Body, and Spirit publisher ("O" Books) in England produced *Bringing the Soul Back Home: Writing in the New Consciousness* by Katya in the summer of 2009 that presented the "writing faster than you can think" process adopted by numerous writers with heightened writing results. With its international distribution to all English speaking countries, the book offered this creative and easy process, which has been refined over the past twenty-seven years in her workshops and retreats at Spirit Mountain and throughout the U.S., U.K. and Hawaii, enabling women to write about their lives in authentic and exciting ways.

Come join us for a weekend of self discovery in your writing while enjoying the group support of other women that emerges in these retreats.

Claim your unique voice from the simple and easy "writing faster than you can think" process that Katya Williamson developed while a writer-in-residence for three summers in Yellowstone National Park that has helping numerous women "speak their truth" and access their creativity for the past twenty-seven years in international and national retreats, classes and workshops

When Ursula K. Le Guin, the famous author, wrote the words:

**"Women are Volcanoes.  
When they offer their life experience as truth,  
all maps change, and new mountains are formed,"**

she spoke the truth about the potential of women to make an impact on society in the world. There can be no better time than now for women to come forward for their own self-empowerment and for their communities, and the natural and comfortable setting of Spirit Mountain Retreat enhances this process.
